

Team Relay Chase

How it Works

The course is built and walked by the riders. There will be up to approximately 18 fences, which will all be jumped in one go. The final 6 - 10 challenges in the course will be timed. In the classes with multiple riders, the changeovers will also be timed. Scores for teams of 2 and 4 will be the total of all their times.

Instead of a baton, a Mounted Games style flag will be used. The first members of the Team Pairs and Fours will have a flag in their hand as they wait to start. Once they have started, the flag must be placed into a cone before the first fence. Once they have completed the course, they will return to the cone and take out the flag and hand it to the next member. The timing will be stopped when the next member puts the flag back into the cone.

Fence Down: 4 Seconds
Refusal: 4 Seconds (2 Refusals lead to Elimination)
Rider Fall: Elimination
Dismounting: 20 Second Time Penalty (Only Applicable at the gate)
Maximum Time: 3 minutes, 30 seconds per rider. Any longer than this will lead to Elimination
For more information on the rules, please speak to the staff on the day, or contact the show office.
