We will allocate a Dressage and Jumping time to each competitor. Times will be available on www.cricklands.com up to 3 days before the show. In the Jumping and Cross Country sections the course will remain the same with the height increased for each class. The course will need to be walked before the start of the class as there may not be an opportunity once the class has begun. This can be done before any class. Please remember this when checking your competition times. Show times are calculated so that all competitors compete in daylight hours.
